

**OnPrintShop**<sup>™</sup>  
Web-to-Print Storefront

Simple • Flexible • Affordable

## About **OnPrintShop** Web-to-Print

OnPrintShop is the flagship product of Radixweb, an IT services provider from India with decade plus of market experience and 8+ years of print industry experience. OnPrintShop has developed user friendly solutions specially designed for SME market.

### **Our key objectives are to help SME printers:**

- Take their unique business model online
- Increase sales without increasing operations cost
- Offer personalized experience to retail and corporate clients
- Automate ordering and operations
- Consistently upgrade our solution and offer personalized services

We understand that SME printers do not have huge in-house IT teams or technical knowledge. So we offer web2print consultancy to help them understand technology and optimize its use for their business growth.

## Our **Solutions**

- ▣ **Subscription & License W2P**
- ▣ **Online Photobook**
- ▣ **Trade Printer / Print Broker**
- ▣ **Custom Web2Print**
- ▣ **Multi Domain with Central Admin**
- ▣ **Designer Studio Integration**

## Key OnPrintShop Strengths

**Stable Solution:** Radix has evolved OnPrintShop working closely with printing industry. We have also been providing IT and online business solutions globally for 12+ years.

**Wide Range of Solutions:** We offer standard web to print solutions on subscription and license (ownership model), online photobook, trade printer, multi-domain with central admin, online VDP composition, online designer studio integration, and more.

**Customizations:** Every business has its unique needs. We offer consultancy and customizations in our

solutions to meet these unique needs. Our clients have recognized our strength to provide high end customizations.

**Personalized Support:** We offer personalized service and steady technical support to our customers for uninterrupted online business in optimized way.

**Consistent Solution Upgrade:** We understand that we grow only when our clients grow. So we consistently upgrade our solution with new features and enhancements to improve productivity and reduce cost.

## One Stop Solution Provider for SME Printers

We understand that it is difficult for SME printers to work with multiple vendors for their IT and design related requirements. So we act as one-stop solution that offers them web2print, IT services, and design services.
